Professional Summary

Detail-oriented and highly skilled C# Developer with over 6 years of experience in designing, developing, and maintaining robust applications and systems. Proficient in using Visual Studio, .NET frameworks, and various development tools to deliver high-quality software solutions. Experienced in both frontend and backend development with a strong focus on performance optimization and problem-solving. Committed to continuous learning and staying up-to-date with industry trends.

Experience

C# Developer

Tech Solutions Inc., San Francisco, CA

January 2021 – Present

- Developed and maintained enterprise-level applications using C# and .NET Core, improving application performance by 25%.
- Utilized Visual Studio 2022 for IDE support, including debugging, code analysis, and unit testing, which enhanced development efficiency.
- Designed and implemented RESTful APIs and integrated them with frontend applications using Angular and React, improving user experience and functionality.
- Employed Entity Framework Core for data access and management, streamlining database operations and reducing query response times.

Software Developer

Innovative Systems Ltd., Tech City, CA

June 2017 – December 2020

- Created and maintained web applications using ASP.NET MVC and ASP.NET Core, contributing to a 30% increase in system stability.
- Utilized Visual Studio Team Services (Azure DevOps) for version control, continuous integration, and deployment, ensuring consistent build quality and release cycles.

- Implemented Windows Forms and WPF applications for internal tools, enhancing user productivity and streamlining workflows.
- Collaborated with cross-functional teams to gather requirements, design system architecture, and deliver features in an Agile environment.

Junior C# Developer

FutureTech Enterprises, Silicon Valley, CA

September 2015 – May 2017

- Assisted in the development of desktop and web applications using C# and WinForms, contributing to improved software functionality and user interface design.
 - Wrote and maintained automated tests using MSTest and NUnit, reducing the number of post-release bugs by 20%.
 - Participated in code reviews and provided feedback to peers, ensuring adherence to coding standards and best practices.
-

Education

Bachelor of Science in Computer Science

Stanford University

Graduated June 2015

- Relevant coursework: Software Engineering, Object-Oriented Programming, Database Systems, Web Development
-

Skills

- **Programming Languages:** C#, .NET Core, ASP.NET, JavaScript
 - **Frameworks/Libraries:** .NET Framework, Entity Framework Core, WPF, Windows Forms
 - **Tools & Technologies:** Visual Studio 2022, Azure DevOps, Git, Docker, SQL Server, Redis
 - **Methodologies:** Agile, Scrum, TDD, CI/CD
 - **Soft Skills:** Problem-solving, Team collaboration, Analytical thinking, Time management
-

Certifications

- **Microsoft Certified: Azure Developer Associate** (2023)
- **Microsoft Certified: .NET Developer** (2022)

- **Certified ScrumMaster (CSM)** (2021)
-

Projects

Enterprise Resource Planning (ERP) System

Led the development of a comprehensive ERP system using C# and ASP.NET Core, integrating various business functions and enhancing operational efficiency by 35%.

Customer Relationship Management (CRM) Application

Developed a CRM application with a user-friendly interface using WPF and MVVM pattern, resulting in improved customer interaction and data management.

Professional Affiliations

- **Member**, Microsoft Developer Network (MSDN)
 - **Member**, C# Corner
-

Languages

- **English**: Fluent
 - **French**: Conversational
-

Interests

- Open-source contributions
- Software architecture
- Video game development
- Mountain biking
